## Testimonial

*"I was stuck, never moving forward, because of fear and self doubt. Getting really clear about what I want in life has allowed me to use it like a north star to keep me focused and grounded. It's now a filter I use when I need to make decisions about my work and how I am spending my time. The fear has lessened and my life has aligned with my purpose without making drastic changes."*

Kim Hrubizna, Abbotsford
